About Radiologist Group

ATI, LLC (American Telemammography)

- Group started in 2010 (close partnership with Unified since 2016).
- One of the first teleradiology groups to focus entirely on Breast Imaging (if not the first).
- Mission: to improve breast cancer survival rates (by providing subspecialty interpretations in communities lacking subspecialist coverage).
- > 10 fellowship-trained radiologists (multiple academic positions).
- > 100 person-years experience interpreting breast imaging.
- cover ~ 1% of all FDA-approved tomosynthesis.
- CDR from screening at numerous locations ranging from 3/1000 to 8/1000, exceeding ACR benchmark (2.5/1000).
- > 20 breast-related peer-reviewed publications and multiple talks presented at national radiology meetings (i.e. RSNA, SBI).
- Advisory member of the group includes a pioneer in use of ultrasound as a breast screening tool.
- ACR reviewer experience.
- Additional notable clients include Florida International University.
